

Please adhere to the parking diagram below for the safety of swimmers and the residents of Woodland Hills Village.

The **Blue Zone** is **approved** for parking

The **RED ZONE** is a **NO PARKING ZONE** – This is to allow for the response of Emergency Vehicles as the roadway in this area is narrow and vehicles parked on both sides hinders Emergency Vehicle Response.

Please remember the following laws as well

An operator may not, except momentarily to pick up or discharge a passenger, stand or park an occupied or unoccupied vehicle:

- **NO PARKING** within **15 Feet** of **FIRE HYDRANT**
- **NO PARKING** within **20 Feet** of **CROSSWALK at INTERSECTION**
- **NO PARKING** within **30 Feet** of **Stop Sign**
- **NO PARKING** blocking **Private or Public Driveways**
- **NO PARKING** where **NO PARKING SIGNS** are located

Please help us keep the swimmers safe and be good neighbors to the residents of Woodland Hills and observe the above rules for parking.

Below is a map of alternate streets (highlighted in yellow) that you can park at and walk on the greenbelts (marked in red) to the pool.

This is the best option as there is limited parking in the parking lots and Shadow Rock.
