Truthfully, it does not matter which events you click on, ENTRIES ARE ALL HANDLED THROUGH the Swim-team.us site, just like every other meet. But, you need to enter the maximum number of any of your swimmers.

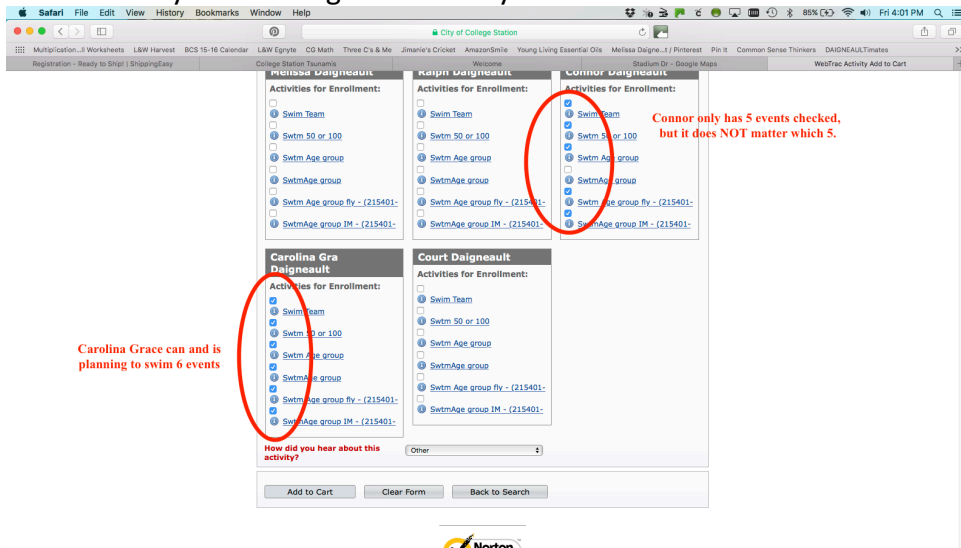

In my case, Carolina Grace is currently eligible to swim 6 events at Trinity, but Connor can only swim 5 b/c he does not have an official time for Breast Stroke. So, I will at this point, add all 6 to my cart, and on the next screen I will assign them to my swimmers.

- After you click the maximum number of entries any one of your swimmers will need, then click the enroll now button, which will pop up at the bottom after you add at least

one event to your cart.

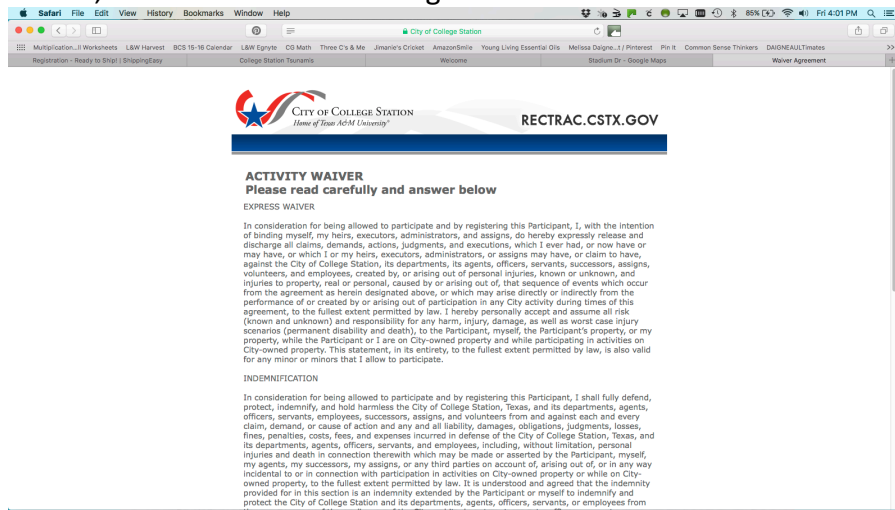

## 8. Next you will assign entries to your swimmers:

It does not matter which invitational your swimmers are swimming at, or even if different swimmers in your household are swimming at different invitationals. All invitational entries are \$5/swimmer. Make sure you click the correct number of events as your swimmer has invitational entries. (So, if a swimmer can swim all 6, but only wants to swim ONE, then you only need to pay \$5 for that swimmer.)

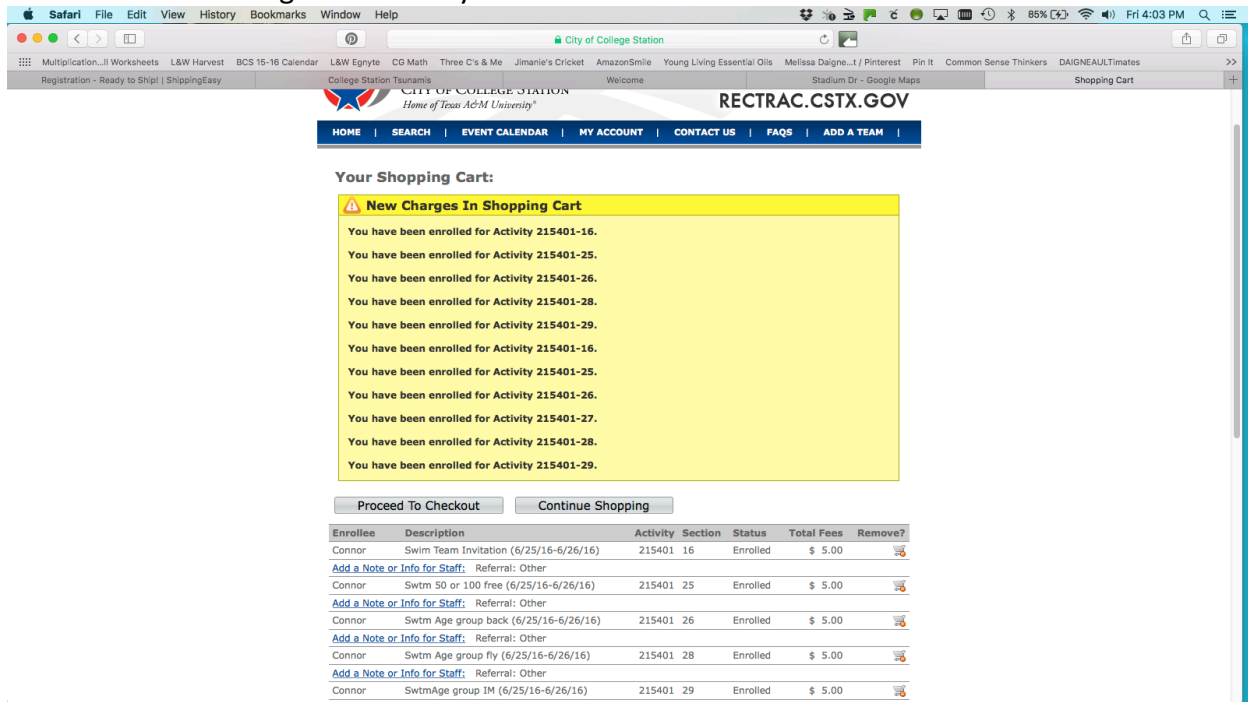

## 9. Once you have assigned events to your swimmers, click the "add to cart" button on the screen above. You will then have to go through a waiver screen for every event. Yes, this is a bit tedious, particularly if you have multiple swimmers, swimming multiple

events, but it won't take too long.

Also, yes, it is two screens for each event. (so, in my case, 22 screens, but I don't think it even took me a whole minute)

10. You will then get a summary screen:

City of College Station

11. Make sure the amount is correct (\$5/entry/swimmer) . . . 6 for Carolina Grace, plus 5 for Connor = 11 \*\$5 = \$55. Then click "Proceed to Checkout" and you should be good.
12. If you paid for Pentathlon already and you were charged \$35, then exclude two of your entries for Invitationals, and you will be even.
