Point Scoring and Standings

As times are entered for each entry, the **Heat Place, Place, and Points** are automatically updated, based on the league rules in the [Seeding and Scoring Rules](#) section of the Meet Template. Once the event is complete (meaning times or DQs have been entered for all heats and entries in the event), overall standings (women, men, total) will be updated.

The screenshot shows the Meet Maestro interface for a "100YD MEDLEY RELAY Boys 8 & Under" event. The event number is 4. The current heat is 1. The "Standings" tab is selected, showing a table with two teams: Green Dragons with 55 points and Golden Geese with 7 points. Below this is a table of results for the heat.

Judge Override of Timed Places

You can override the places with a "Judge's decision." When you hover over the Heat Place, Place or Points for any swim, a pencil icon will appear – simply click the heat place to edit it. If the place or points are overridden, it will be indicated by a grey triangular "dog ear" icon above the overridden number.
